

Lesson 14

Problem Set

1. Triangles accurately drawn; side lengths and angles labeled
2. Lines of symmetry accurately drawn in 1(a) and 1(d); explanations will vary.
3. False; explanations will vary.
4. True; explanations will vary.
5. True; explanations will vary.
6. True; explanations will vary.

Extension: True; explanations will vary.

Exit Ticket

1. Triangle accurately drawn with 1 line of symmetry
2. Triangle accurately drawn with no lines of symmetry
3. 2

Homework

1. Triangles drawn accurately; side lengths and angles labeled
2. Lines of symmetry accurately drawn in 1(a) and 1(c); explanations will vary.
3. True; explanations will vary.
4. False; explanations will vary.
5. True; explanations will vary.
6. False; explanations will vary.

Extension: False; explanations will vary.
